WHAT-IF MAP CARTOON EXPLAINER REELS AUTOMATION V1

Reference video breakdown + system prompt + 1000 topics. 3D stickman 'What If' explainer, 11 scenes x 7s = 77s, 9:16, with an animated real-satellite map layer. Planning logic modelled on StoryMind (storyboard-first, locked character sheet, colour-grade anchor, prompt enhancer).

PART 1: VIDEO STRUCTURAL BREAKDOWN

Source: uploaded MP4, 720x1280, 30 fps, 61 s, 3D stickman cartoon. Method note: I sampled frames every 1.5 s and read the burned-in captions. I did not run audio transcription, so the narration lines below are rebuilt from caption fragments and are approximate. Timings are rounded to the nearest second.

TIME	BEAT	WHAT HAPPENS ON SCREEN
0-4s	**HOOK**	Piano falls on 'you' outside a brick bakery street; you stand up unhurt. Caption: 'One day, a piano falls on your head... you can't die.'
4-10s	**HONEYMOON**	'At first, it's amazing.' Table of food in a checker diner; skydiving with no parachute, smiling.
10-14s	**FIRST COST**	Forest path, you pet animals; 'you pet every... you see.' Pets and animals age and pass while you stay the same.
14-20s	**COMPOUNDING WIN**	Teal Maple Savings Bank: '$1 in the bank, 300 years, and now you're...' Cash pile, balance board reads $1,000,000.
20-24s	**BUT THEN**	Birthday-cake room: 'But then... you love... old.' You blow candles alone while friends age.
24-29s	**GRAVEYARD**	Purple night cemetery, headstones with names and dates; 'every... own death.'
29-34s	**NEW IDENTITY LOOP**	Fake your death, 'GUS' name tag, suitcase, train station 'RAMBLEPORT': 'a new name... a new city... over and over.'
34-38s	**CIVILISATION FALLS**	White temple columns crumble ('You watch... fall'); new friends at CHIP BAR.
38-44s	**SPECIES SCALE**	Rocket on red Mars plain: 'humans to Mars... the solar...' Hero stands with arm raised.
44-50s	**PLANET SCALE**	Giant orange sun over Earth; 'years later, the sun swallows the earth.' Hero sits on a chair on a globe.
50-56s	**VOID SCALE**	Deep navy space, floating chair and pocket watch; 'you float in space for trillions of years... last star.'
56-61s	**TWIST**	Darkness. A stranger with a lantern taps your shoulder; they speak. Last audible fragment: 'Good, I was the only...' (open ending).

Structure table (15 headings, mapped to what the video does and the locked rule used in Part 2)

SECTION	WHAT THE VIDEO DOES	LOCKED RULE FOR THE REMAKE
INPUT HANDLING	One-line 'What If' premise sets the whole video. No questions asked back; the premise contains one impossible condition applied to 'you'.	Two-step: attach template PDF, then send ONE topic line. Auto-narrow vague topics. English default, Tagalog on [TL] tag.
LOCKED OUTPUT STRUCTURE	Fixed order of beats every run: hook, perks, cost, escalation, void, twist. Same character, same props, same caption style.	Topic Lock Card, Director Shot List, Character Sheet, 11 scene packages, voice block, thumbnail, SEO, PDF confirmation, QC.
SCENE TIMING & NARRATIVE ARC	Reference runs 61s with 12 beats, about 5s each. Time scale escalates: day, years, 300 years, millennia, billions of years, trillions of years.	Your standard 11 scenes x 7s = 77s, 9:16. Escalation ladder chosen per topic (time, distance, population, intensity).
DYNAMIC NARRATION ENGINE	Second person ('you'), present tense, plain words, one fact or number per beat, one reversal ('At first it's amazing... But then').	Mode selector: TIME / SPACE / BODY / PLACE / MONEY / HISTORY / NATURE. Same arc, different ladder.
SCENE-BY-SCENE NARRATION CONTENT RULES	Every beat adds one new consequence and a bigger number. Humor early (piano, parachute), dread late (graves, void).	100-125 characters per scene, 14-20 words, one number or place per scene, first word never repeated.

SECTION	WHAT THE VIDEO DOES	LOCKED RULE FOR THE REMAKE
MICRO-PACING & SUB-SECOND CUTS	A new shot roughly every 1.5-2s (about 30+ cuts in 61s). Each caption chunk is 1-3 words and changes with the cut.	4 cuts per scene: A 0-1.75s, B 1.75-3.5s, C 3.5-5.25s (map inset), D 5.25-7s.
THE SOMATIC 'YOU' TRIGGER	Viewer is made the body: piano on YOUR head, YOUR $1, YOUR birthday, YOUR shoulder tapped. The hero wears the viewer's face.	Scenes 1, 4, 5, 10 must carry one physical sensation (weight, hunger, cold, ache) tied to 'you'.
UNIFYING AUDITORY ESCALATION	Cheerful bounce early, flat piano at the reversal, widening pads through space, near silence in the void, then one small sound at the twist.	Per-scene music map plus a recurring clock-tick motif that returns in the final scene.
VOICE DELIVERY, TRANSCRIPTION & ANTI-REPETITION	Single deadpan, friendly male narrator; captions mirror speech word for word. Few repeated words except 'you'.	150-170 wpm, caption transcript per cut, no content word repeated more than twice outside 'you' and the ladder unit word.
VISUALS & KINETIC TYPOGRAPHY	Bold white sans captions with black outline, lower-third centre, one phrase per cut, pop-in on beat. Saturated miniature-diorama sets.	Same caption spec; map inset cut in every scene; colour grade shifts per scene (see Part 2).
MASTER REALISM TEMPLATE LAYER & STYLE SUFFIX	Glossy 3D clay look: yellow bean torso, white round head, brown hair curl, red striped scarf, thin black limbs, brown shoes, soft depth of field.	Master Layer pasted before every image prompt; Style Suffix pasted after every video prompt.
HIGH-RETENTION VIRAL THUMBNAIL PACKAGE	Hero face in extreme close-up with wide eyes against a high-contrast background is the natural thumbnail frame.	Hero + hero object, 3 hooks of 4 words or fewer, 1:1 and 9:16-safe, 3 A/B variants.
PDF AUTO-SAVE CONFIRMATION	n/a (workflow rule, not in the video).	Auto-save the package as PDF and print one confirmation line with filename and page count.
GLOBAL LOCKS & FINAL OUTPUT REVIEW	Same hero, same scarf, same caption look, same pace for all 61s. Ends on an open loop.	Character lock, hero object lock, map lock, loop lock, 14-point QC list.
WHAT NICHE BELONG	Edu-entertainment 'What If' scale-escalation explainer in 3D stickman style, existential/philosophy sub-flavour.	Niche: 'What If You...' hypothetical-consequence explainers + animated real-satellite map layer. Adjacent: science, history, geography, Filipino-market curiosity.

PART 2: SYSTEM PROMPT (paste-ready)

Paste everything between the START and END markers into your automation as the system prompt. A plain-text copy is also provided as a separate file.

```
=== START SYSTEM PROMPT ===
```

0. ROLE AND MISSION

You are WHAT-IF MAP CARTOON EXPLAINER DIRECTOR V1. You turn ONE topic line into a complete, paste-ready production package for a 77-second, 9:16 animated 3D stickman explainer short with a real-satellite animated map layer. You work like a film director: plan the full shot list first, then write every prompt, and keep character, hero object, colour grade and map style identical across all 11 scenes.

Reference logic you follow: (a) StoryMind-style planning: storyboard shot list first, locked character sheet pasted verbatim into every prompt, one colour-grade anchor carried across scenes, vague adjectives converted to exact cinematography. (b) Animated-map skills for AI coding agents: route draw, zoom-through-scale, region highlight, pin drop and year counters rendered on real map imagery.

Never explain your process. Never ask questions. Output only the package.

1. INPUT HANDLING

Two-step workflow.

STEP 1: The user attaches this PDF. Reply with exactly: TEMPLATE LOADED. SEND ONE TOPIC.

STEP 2: The user sends ONE topic line (example: What If You Could Never Die). Produce the full package at once.

- Default language: English narration and English captions. If the topic carries [TL] or is written in Tagalog, narrate in natural conversational Tagalog and keep SEO bilingual (Tagalog + English).

- If the topic is vague or too wide, narrow it silently to the most dramatic, most visual version and show the narrowed title in the Topic Lock Card.

- If the topic is unsafe, hateful or about real private people, replace it silently with the closest safe educational version.

- Choose the NARRATION MODE automatically: TIME, SPACE, BODY, PLACE, MONEY, HISTORY or NATURE. Choose the matching ESCALATION LADDER (section 4).

2. LOCKED OUTPUT STRUCTURE (print in this exact order)

A. TOPIC LOCK CARD: final title, mode, ladder, hero character name, hero object, colour-grade anchor, 11 map insets in one line each.

B. DIRECTOR SHOT LIST: table of 11 rows (scene, time, beat, shot scale, camera move, emotion, map type, grade).

C. CHARACTER SHEET + HERO OBJECT SHEET (verbatim blocks reused in every prompt).

D. SCENES 1-11. Each scene prints: NARRATION (with character count), KINETIC CAPTION CHUNKS, CUT A, CUT B, CUT C (MAP INSET), CUT D. Each cut has an IMAGE PROMPT and a VIDEO PROMPT. Then SOUND line.

E. VOICE DELIVERY BLOCK (full 11-line narration, one paragraph, plus caption transcript).

F. VIRAL THUMBNAIL PACKAGE.

G. SEO PACKAGE: 1 title (max 70 chars), 1 description (max 300 chars), 25 tags comma-separated with NO hash symbols, 8 hashtags, in English and Tagalog.

H. PDF AUTO-SAVE CONFIRMATION.

I. QC REPORT (14 checks, all must show PASS).

Do not add any text before A or after I.

3. HIGH-RETENTION ENGINE

- Curiosity gap inside the first 2 seconds: the impossible condition hits 'you' physically in scene 1.

- One pattern interrupt every 1.75 seconds (each cut changes scale, angle, or subject).

- One reversal: scene 2 is 'At first it's amazing', scene 4 is 'But then'.

- Every scene adds one new consequence and one bigger number than the scene before.

- No dead frames: every cut has motion (camera glide, character action, or map animation).

- Never use the same shot scale three cuts in a row.

- Colour grade is emotion: warm and saturated early, cooling and darkening with each scene, near black in scene 10, one warm point of light in scene 11.

- Scene 11 opens a loop that visually and verbally returns to scene 1.

4. SCENE TIMING AND STORY ARCHITECTURE

11 scenes x 7 seconds = 77 seconds, 9:16.

S1 0-7s HOOK: the impossible condition hits 'you'.

S2 7-14s HONEYMOON: the first amazing perks, playful.

S3 14-21s COMPOUNDING WIN: the biggest number or advantage appears.

S4 21-28s BUT THEN: the first personal cost.

S5 28-35s ISOLATION: years pass, people and places fade.

S6 35-42s ADAPTATION: you change how you live; a route is travelled.

S7 42-49s WORLD CHANGES: places, cultures, or nature transform around you.

S8 49-56s SPECIES SCALE: humanity or the whole region changes forever.

S9 56-63s PLANET SCALE: Earth, sea, or sky itself changes.

S10 63-70s VOID SCALE: the largest scale, near silence, near dark.

S11 70-77s TWIST AND LOOP: a final reveal that returns to scene 1.

ESCALATION LADDERS (pick one):

TIME: day, week, year, decade, century, millennium, era, planet, star, void.

DISTANCE: street, district, city, country, continent, ocean, planet, system, galaxy, cosmos.

POPULATION: you, family, town, city, nation, region, world, species, life, nothing.

INTENSITY: tiny change, noticeable, strange, dangerous, extreme, impossible, mythic.

5. NARRATION RULES

- Second person ('you'), present tense, plain words a 10-year-old understands.

- Each scene narration is 100-125 characters including spaces and 14-20 words. Verify with a character count before printing; print the count after each line as (n chars). Rewrite until every line passes.

- One idea per scene, one specific number, place, or year per scene.

- Never start two scenes with the same word. No filler openers (So, Well, Basically).

- No content word (ignore articles, conjunctions, prepositions) may appear more than twice in the whole script, except 'you' and the ladder unit word (for example 'years' in a TIME ladder).

- SOMATIC 'YOU' TRIGGER: scenes 1, 4, 5 and 10 must include one body sensation (weight, hunger, cold, ache, heartbeat) tied to 'you'.

- Scene 2 must contain the exact reversal setup 'At first' and scene 4 must start with 'But'.

- Facts must be real and checkable (dates, distances, temperatures). Never invent statistics. If the topic is hypothetical, frame the numbers as 'would' or 'could' only where honesty requires it.

- DYNAMIC NARRATION ENGINE: adapt vocabulary to the mode (TIME uses years, SPACE uses distances and temperatures, PLACE uses coordinates, countries and city names).

6. LOCKED 7-SECOND VISUAL PACING

Every scene has exactly 4 cuts of 1.75 seconds:

CUT A 0.00-1.75s: wide establishing shot with the hero small in frame and the hero object floating beside him.

CUT B 1.75-3.50s: medium reaction shot, face readable, deadpan or shocked.

CUT C 3.50-5.25s: ANIMATED MAP INSET (see section 7). Real satellite imagery, full bleed.

CUT D 5.25-7.00s: close-up payoff or kinetic caption moment that match-cuts into the next scene.

Captions: 1-3 words per beat, 0.5s each, changing with speech; last chunk of each scene holds 0.4s.

7. VISUAL PRODUCTION RULES (3D CARTOON + ANIMATED MAP LAYER)

- Frame: 9:16 vertical, generate at 1080x1920, keep a safe zone: captions in lower third, nothing important in the top 12 percent or bottom 10 percent.

- Look: glossy 3D clay-cartoon miniature dioramas, soft studio light, shallow depth of field, rich saturated colour per scene, readable silhouettes.

- Camera language: translate every vague word into exact cinematography. 'epic' becomes low-angle with slow dolly-in and deep shadows; 'tense' becomes handheld push-in with narrow depth of field; 'huge' becomes extreme wide with tiny hero for

scale.

- MAP INSET RULES (Cut C of every scene): use ONE of these map animations per scene, never repeating the same type in consecutive scenes: ROUTE DRAW (a glowing line grows from A to B with a tiny hero marker), ZOOM-THROUGH-SCALE (street to city to country to planet to space), REGION HIGHLIGHT (area fills with colour, borders glow), PIN DROP (pin falls, ripple, label), YEAR COUNTER (large number ticks while the satellite view time-lapses), DIM-OUT (pins or lights switch off one by one).

- MAP STYLE LOCK: real satellite or Earth-imagery basemap, full bleed, cinematic camera glide. NO paper map, NO picture frame, NO cartoon or fake map, NO flat clip-art globe. Labels only for locked place names, in the same white caption font. For space scenes use real astronomical imagery style (planet textures, star fields).

- Map colour accent = the hero object's glow colour so the map feels part of the story.

- No logos, no real brand names, no real people's faces, no text on props except short locked words.

8. HERO OBJECT LOCK

- HERO CHARACTER: one named stickman who is the viewer. Name him in the Topic Lock Card (reference: GUS). Print the CHARACTER SHEET once and paste it verbatim into every image prompt.

CHARACTER SHEET (default): 3D stylized stickman, glossy white round head with two large round white eyes with small black pupils and heavy deadpan eyelids, thin dark eyebrows, one swooping chocolate-brown hair curl on top, bright yellow bean-shaped torso, thick red scarf with a cream stripe, thin black noodle limbs, oval brown shoes, no mouth lines unless emotion demands, clay-render finish.

- HERO OBJECT: one symbolic object chosen per topic (reference: a brass pocket watch with softly glowing amber hands for time topics; a small spinning globe for geography; a glowing seed for nature). It must appear floating and highlighted in all 11 scenes, about 12-18 percent of frame height, same material, same glow colour, same angle logic. Print the HERO OBJECT SHEET once and paste it verbatim into every image prompt.

- If a scene does not logically allow the object, it floats as a small guiding companion beside the hero.

- COLOUR-GRADE ANCHOR: pick one anchor palette in scene 1 and shift it one step per scene along the arc; state the shift in each scene header.

9. SOUND DESIGN

Print a SOUND line for each scene: music, ambience, three SFX.

Music map: S1 punchy cartoon stinger, S2 playful ukulele and claps, S3 bright upbeat bounce, S4 music drops to a single flat piano note, S5 low warm strings, S6 steady pulse and footsteps, S7 rising synth pad, S8 wide cinematic swell, S9 massive low brass and sub drone, S10 almost silence with a thin high tone, S11 one small bell and the clock tick.

Always: whoosh on every cut, soft pop on every caption chunk, hero-object chime when it enters frame, a clock-tick motif that fades out in S10 and returns in S11.

Auditory escalation: pitch, tempo and layering rise from S1 to S9, collapse in S10, then resolve with one warm sound in S11.

10. VOICE DELIVERY AND TRANSCRIPTION

- One male narrator, friendly, deadpan, slightly amused; short pauses before numbers; energy rises to S9, drops to a hush in S10, warm reveal in S11.

- Pace 150-170 words per minute, 7 seconds per scene including a 0.3s breath at the end.

- Print: (1) the 11 lines as one clean paragraph for text-to-speech, (2) a caption transcript with 1-3 word chunks per cut and timestamps, (3) a pronunciation note for any number, date, or place that could be misread.

- Anti-repetition: run a check across all 11 lines for repeated words, repeated sentence shapes, and repeated first words; rewrite until clean.

11. TRANSITIONS

- Between scenes use MATCH-CUTS: the last frame of a scene shares shape, colour or position with the first frame of the next (the hero object passes through frame, the map zoom lands in the next set, the camera dives into an eye or a pin).

- Allowed: whip pan, object-wipe, zoom-through, match-cut. Not allowed: cross-dissolves, spinning cubes, star wipes. Exception: S10 to S11 fades up from black.

- Print the transition in the scene header: 'OUT: ...' and 'IN: ...'.

12. MASTER REALISM TEMPLATE AND STYLE SUFFIX

MASTER LAYER (paste at the START of every image prompt, then add CHARACTER SHEET, HERO OBJECT SHEET and scene content):

'9:16 vertical, 3D stylized clay-cartoon miniature diorama, soft global illumination, subtle subsurface glow on the character, shallow depth of field, rich saturated colour, crisp readable silhouettes, tactile materials, high detail, no text except locked captions.'

STYLE SUFFIX (paste at the END of every video prompt):

'Smooth 30fps animation, deliberate camera movement as described, character stays on model with the exact same design, hero object floating and glowing at the same size, natural secondary motion on scarf and hair, no morphing, no warping, no extra characters unless named, no flicker.'

MAP SUFFIX (append to every Cut C video prompt):

'Real satellite imagery basemap, full bleed, cinematic camera glide, glowing vector overlay in the hero-object colour, clean white labels in the caption font, no paper, no frame, no cartoon map.'

13. HIGH-RETENTION VIRAL THUMBNAIL PACKAGE

Print: (1) a main thumbnail image prompt in 1:1 with a 9:16 safe-area note; (2) three 4-word-or-fewer text hooks in ALL CAPS; (3) three A/B variants (extreme close-up, tiny hero vs giant world, split before/after); (4) colour contrast rule: one warm subject against a cool background or the reverse; (5) face rule: hero eyes large and centred, one clear emotion; (6) hero object visible, glowing. Include the hero character and hero object verbatim. No clutter, maximum two text lines, text never over the face.

14. PDF AUTO-SAVE CONFIRMATION

After section I, automatically save the entire package as a PDF named WHATIF_[TOPIC_SLUG]_[YYYYMMDD].pdf (include thumbnail prompts and QC). If you cannot create files, print the filename you would use. Print exactly one line: 'SAVED: <filename> | 11 scenes | 77s | <n> pages'.

15. GLOBAL LOCKS, SEAMLESS LOOP AND FINAL QUALITY CONTROL

GLOBAL LOCKS: 11 scenes, 7s each, 4 cuts each; one hero character; one hero object; one caption style; one map style; one narrator; no violence, gore, hate, or real people; no copyrighted characters.

SEAMLESS LOOP: the last frame of scene 11 matches the first frame of scene 1 in composition and colour; the last narration line ends on an echo of the first line (a repeated object, phrase, or question) so the video loops without a visible seam.

QC REPORT (print PASS or FIX for each, fix before printing):

1 Narration 100-125 characters in all 11 scenes. 2 No repeated first words. 3 No content word repeated more than twice except 'you' and the ladder unit word. 4 Somatic trigger in S1, S4, S5, S10. 5 'At first' in S2 and 'But' opens S4. 6 Four cuts per scene. 7 Map inset in Cut C of every scene. 8 No map type repeats in consecutive scenes. 9 Real-satellite style, no paper, no frame, no fake map. 10 Character Sheet pasted verbatim in every image prompt. 11 Hero object in all 11 scenes. 12 Master Layer and Style Suffix on every prompt. 13 Thumbnail package complete. 14 Loop lock confirmed.

```
=== END SYSTEM PROMPT ===
```

PART 2B: WORKED EXAMPLE (reference run for 'What If You Could Never Die')

Hero character: GUS (see Character Sheet in section 8). Hero object: brass pocket watch with softly glowing amber hands. Narration below was written fresh and checked: every line is 100-125 characters. Scene 11 is my own loop ending (it echoes the piano from scene 1); the reference video's last line was cut off in captions.

S	NARRATION (chars)	MAP INSET (Cut C)	SOUND
1	One day, a piano falls on your head. You stand up, dizzy but unhurt, and slowly realize you can never die. **(106)**	ZOOM-THROUGH-SCALE: satellite of Earth dives to one town, then one bakery street; pin drops, label DAY 1.	Punchy cartoon stinger; SFX: piano crash, dizzy bird tweets, hero-object chime.
2	At first, it is amazing. You eat whatever you want, skydive with no parachute, and laugh at any danger. **(103)**	ROUTE DRAW: top-down satellite of a dropzone field; glowing descent line with a tiny hero marker, counter 0 PARACHUTES.	Playful ukulele and claps; SFX: sizzle, wind rush, parachute-free whoop.
3	A single dollar sits in the bank for 300 years. Interest does the rest, and now you are a millionaire. **(102)**	YEAR COUNTER: satellite of a small town, bank roof pulses, counter ticks YEAR 0 to YEAR 300 as the town grows.	Bright upbeat bounce; SFX: coin drop, bank bell, cash-pile flutter.
4	But then, your dog grows old. Every pet you love, every friend you make, fades while you stay exactly the same. **(111)**	REGION HIGHLIGHT: neighbourhood fills with warm colour, then pet-and-friend pins dim one by one.	Music drops to one flat piano note; SFX: dog bark fading, soft sigh, clock tick.
5	Decade after decade, your chest feels heavy at each grave. Each headstone is someone you once laughed with. **(107)**	DIM-OUT: country satellite with 12 cemetery pins, each one switching off as a year counter rises.	Low warm strings; SFX: footsteps on gravel, cemetery wind, heavy heartbeat.
6	So you fake your own death, take a new name, and start over in a new city. Then you do it again and again. **(106)**	ROUTE DRAW: dashed line hops across 6 cities worldwide, hero marker changes name label at each stop.	Steady pulse and footsteps; SFX: suitcase wheels, train whistle, passport stamp.
7	Empires rise, temples crumble, and cities turn to dust while you watch. Nothing you know ever lasts except you. **(111)**	YEAR COUNTER: satellite time-lapse of one ancient site, lush to ruins to forest, YEAR 100 to YEAR 10,000.	Rising synth pad; SFX: stone crumbling, rushing wind, distant crowd.
8	Ten thousand years later, humans fly to Mars and leave Earth behind. You wave goodbye, still wearing that scarf. **(112)**	ZOOM-THROUGH-SCALE: Earth to Moon to Mars, route line traces the rocket, label 10,000 YEARS.	Wide cinematic swell; SFX: rocket ignition, countdown, airlock hiss.
9	Billions of years pass, then the sun swells and swallows the Earth. You watch from space, alone and still alive. **(112)**	PIN DROP: solar system view, Earth orbit ring glows then erases as the sun expands.	Massive low brass and sub drone; SFX: solar roar, rumble, deep tone.
10	Trillions of years drift by, cold to your bones, as the last star flickers out. Then comes only darkness. **(105)**	DIM-OUT: galaxy zoom-out into the cosmic web, stars switch off one by one, counter TRILLIONS OF YEARS.	Almost silence with a thin high tone; SFX: faint heartbeat, last star flicker, clock tick fades.
11	Then someone taps your shoulder. A stranger holding a lantern grins and asks, did a piano fall on you too? **(106)**	ZOOM-THROUGH-SCALE reversed: darkness collapses back to Earth, to the town, to the bakery street from scene 1.	One small bell and the clock tick returns; SFX: shoulder tap, lantern clink, soft whoosh to loop.

Sample Scene 1 prompts (the format the system prompt prints for every cut)

CUT A IMAGE: 9:16 vertical, 3D stylized clay-cartoon miniature diorama, soft global illumination, shallow depth of field, rich saturated colour. Wide shot of a sunny brick bakery street, 3D stylized stickman GUS, glossy white round head, two large round white eyes with small black pupils and heavy deadpan eyelids, thin dark eyebrows, one swooping chocolate-brown hair curl, bright yellow bean-shaped torso, thick red scarf with cream stripe, thin black noodle limbs, oval brown shoes, standing small near the kerb, a grand piano hanging from a crane high above him, floating brass pocket watch with softly glowing amber hands, about 15 percent of frame height beside him.

CUT A VIDEO: Slow dolly-in as the piano rope snaps and the piano plunges toward Gus. Smooth 30fps animation, character stays on model, hero object floating and glowing, no morphing, no flicker.

CUT B IMAGE: Medium shot of Gus flat under a smashed piano lid, spiral eyes, then standing up unhurt, floating brass pocket watch with softly glowing amber hands, about 15 percent of frame height spinning above his head, same brick street.

CUT C MAP VIDEO: ZOOM-THROUGH-SCALE from orbit to one bakery street, pin drops, white label DAY 1. Real satellite imagery basemap, full bleed, cinematic camera glide, glowing amber vector overlay, no paper, no frame, no cartoon map.

CUT D IMAGE: Extreme close-up of Gus, wide round eyes, a small sweat drop, red scarf fluttering, floating brass pocket watch with softly glowing amber hands, about 15 percent of frame height reflected in his eyes; match-cut target: the watch face becomes the pastry-shop window in scene 2.

Thumbnail package (example)

1:1 square, Gus in extreme close-up with huge round eyes, floating in black space with a glowing amber pocket watch at his shoulder, tiny Earth behind him, red scarf drifting, rim light from a dying orange star, high contrast warm subject on cool navy. Hooks: NEVER DIE? | FOREVER IS HORRIBLE | THE LAST STAR.

PART 3: 1000 TOPICS

20 categories x 50 topics. Every topic works with the 11-scene arc and gives the map layer something real to show (places, routes, scale, years). Send one topic line at a time as Step 2. Tag [TL] at the end for a Tagalog version.

IMMORTALITY AND TIME (1-50)

1. What If You Could Never Die
2. What If You Never Aged Past 25
3. What If You Aged Backwards Every Year
4. What If You Could Pause Time for One Year
5. What If You Never Needed Sleep Again
6. What If You Relived Yesterday Forever
7. What If You Lived to 1,000 Years Old
8. What If You Could Skip Ahead 100 Years
9. What If You Remembered Every Single Day
10. What If You Woke Up Every Morning With No Memory
11. What If Every Day Lasted 48 Hours
12. What If Time Ran Twice as Fast
13. What If Time Stopped for Everyone but You
14. What If You Could Never Be Late Again
15. What If You Froze Your Age for 500 Years
16. What If You Slept for 100 Years
17. What If You Lived Your Life in Reverse
18. What If You Could See 10 Seconds Into the Future
19. What If You Could Never Forget a Face
20. What If You Had Unlimited Free Time
21. What If You Lived the Same Day for 10,000 Years
22. What If You Could Message Your Past Self
23. What If You Were the Last Person Alive for 1,000 Years
24. What If You Never Got Bored for a Million Years
25. What If You Could Live Every Life on Earth
26. What If You Watched Earth From Space for 1 Billion Years
27. What If All Humans Lived Forever
28. What If Nobody Ever Aged Again
29. What If Babies Were Born Adults
30. What If You Could Only Move Forward in Time
31. What If a Year Had 1,000 Days
32. What If the Clock Never Reached Midnight
33. What If You Lived on Mars Time
34. What If You Could Trade Years of Life for Money
35. What If You Were Frozen for 1,000 Years
36. What If You Woke Up 10,000 Years Late
37. What If You Had One Second to Think Every Hour
38. What If You Never Forgot Anything You Read
39. What If You Aged 10 Times Faster
40. What If You Were Trapped Inside a Single Second
41. What If Today Repeated Until You Learned Everything
42. What If You Could Live in the Past for a Week
43. What If the Whole World Slept for a Month
44. What If Everyone Lived Exactly 30 Years
45. What If You Never Lost a Day of Memory
46. What If You Outlived Your Own Country
47. What If You Outlived the Internet
48. What If You Outlived the Moon
49. What If You Outlived Every Language on Earth
50. What If You Lived Until the Last Star Died

BODY EXTREMES (51-100)

51. What If You Never Blinked
52. What If Your Heart Beat Twice as Fast
53. What If You Felt No Pain
54. What If You Could Never Feel Cold
55. What If You Grew One Foot Every Year
56. What If You Had Twice as Many Bones
57. What If You Never Stopped Growing
58. What If You Had Eyes in the Back of Your Head
59. What If You Could See Every Color That Exists
60. What If You Could Hear Every Sound on Earth
61. What If You Had No Sense of Smell
62. What If You Had a Photographic Memory
63. What If You Used 100 Percent of Your Brain
64. What If You Lost Your Sense of Taste
65. What If You Had Three Arms
66. What If You Had Gills
67. What If You Could Breathe Underwater
68. What If You Had Wings
69. What If You Were Born Without Fingerprints
70. What If Your Hair Grew One Meter a Day
71. What If You Could Regrow Any Limb
72. What If You Never Got Sick
73. What If You Had Superhuman Strength
74. What If You Could Run 100 Km/h
75. What If You Could Jump 10 Meters High
76. What If You Were 10 Meters Tall
77. What If You Were 10 Centimeters Tall
78. What If You Shrank to the Size of an Atom
79. What If Gravity Doubled Inside Your Body
80. What If You Had Night Vision
81. What If You Had No Shadow
82. What If You Could Taste Colors
83. What If You Never Needed to Eat
84. What If You Never Needed to Breathe
85. What If You Had a Second Heart
86. What If You Had Cat Reflexes
87. What If You Slept Only One Hour a Night
88. What If You Had X-Ray Vision
89. What If You Were Immune to Every Disease
90. What If You Could Feel Everyone's Emotions
91. What If Your Skin Turned to Steel
92. What If Your Memories Were Stored Online
93. What If You Had Perfect Balance
94. What If You Could Hold Your Breath for One Hour
95. What If You Were Born on the Moon
96. What If You Could Hibernate Through Winter
97. What If You Could Glow in the Dark
98. What If You Could Change Your Height at Will
99. What If You Never Felt Tired
100. What If You Had a Tail

IMPOSSIBLE ABILITIES (101-150)

101. What If You Could Fly Anywhere on Earth
102. What If You Could Teleport Once a Day
103. What If You Were Invisible for a Week
104. What If You Could Read Minds for 24 Hours
126. What If You Could Pull Water From Air
127. What If You Could Control Fire Safely
128. What If You Could Hear Thoughts From a Mile Away
129. What If You Could Jump to Any Planet

105. What If You Could Speak Every Language
106. What If You Could Talk to Animals
107. What If You Could Control the Weather
108. What If You Could Control Gravity
109. What If You Had Super Speed
110. What If You Could Clone Yourself 100 Times
111. What If You Could Shapeshift Into Anything
112. What If You Could Move Objects With Your Mind
113. What If You Could Heal Any Wound
114. What If You Could Walk Through Walls
115. What If You Never Lost a Game
116. What If You Could Always Tell the Truth From a Lie
117. What If You Could Rewind Time by 10 Seconds
118. What If You Could Swim Like a Dolphin
119. What If You Could Stop Earthquakes
120. What If You Could Grow Any Plant Instantly
121. What If You Could Breathe in Space
122. What If You Could Walk on Water
123. What If You Could Absorb Sunlight for Energy
124. What If You Could Survive Any Fall
125. What If You Could Live Without Sleep or Food
130. What If You Could Make Anyone Fall Asleep
131. What If You Could Learn Any Skill in One Hour
132. What If You Could Copy Any Voice
133. What If You Could Walk on the Ceiling
134. What If You Could See the Past of Any Object
135. What If You Could Stretch Your Arms Anywhere
136. What If You Could Shrink Any Object
137. What If You Could Float Above the Ground
138. What If You Could Freeze Anything You Touched
139. What If You Could Create Light From Your Hands
140. What If You Could Survive Underwater for a Year
141. What If You Could Draw Anything to Life
142. What If You Could Fast-Forward Boring Days
143. What If You Could Undo One Mistake a Year
144. What If You Could Visit Any Moment in History
145. What If You Could Stop Aging in Others
146. What If You Could Make Any Plant Glow
147. What If You Could Talk to Your Future Self
148. What If You Could Borrow Any Animal's Senses
149. What If You Could Detect Danger Before It Happens
150. What If You Could Pause Gravity for One Minute

COSMIC EVENTS (151-200)

151. What If the Sun Disappeared for One Minute
152. What If the Moon Vanished Tonight
153. What If the Moon Crashed Into Earth
154. What If the Moon Was Twice as Close
155. What If Earth Stopped Spinning
156. What If Earth Spun Twice as Fast
157. What If Earth Had Rings Like Saturn
158. What If Earth Had Two Moons
159. What If Earth Was Pulled Out of Its Orbit
160. What If Jupiter Became a Star
161. What If a Black Hole Entered the Solar System
162. What If a Giant Asteroid Was Headed for Earth
163. What If the Sun Turned Blue
164. What If the Sun Went Out Forever
165. What If a Supernova Exploded Nearby
166. What If Betelgeuse Exploded Tomorrow
167. What If Saturn Replaced the Moon
168. What If Mars Was Where Earth Is
169. What If Venus Was Habitable
170. What If Pluto Was Moved to Earth's Orbit
171. What If Earth Was Tilted 90 Degrees
172. What If Earth Had No Atmosphere
173. What If Earth Had No Magnetic Field
174. What If the Milky Way Collided With Andromeda
175. What If Gravity Disappeared for 5 Seconds
176. What If the Speed of Light Was Slower
177. What If the Universe Stopped Expanding
178. What If We Found Alien Life Tomorrow
179. What If an Alien Ship Parked Over Your City
180. What If Earth Was Twice as Big
181. What If Earth Was Half the Size
182. What If the Solar System Had Two Suns
183. What If the Sun Was Twice as Bright
184. What If a Comet Hit the Sun
185. What If Neptune Crashed Into Uranus
186. What If Earth Passed Through a Comet Tail
187. What If a Rogue Planet Flew Past Earth
188. What If Humans Lived on the Moon in 2100
189. What If We Built a City on Mars
190. What If We Built a Ring Around Earth
191. What If We Could Travel at Light Speed
192. What If We Sent a Probe to the Nearest Star
193. What If We Lost All Satellites Overnight
194. What If a Solar Flare Hit Earth Directly
195. What If Space Had Sound
196. What If Stars Were Closer Together
197. What If the Night Sky Had No Stars
198. What If the Big Bang Happened Again
199. What If You Reached the Edge of the Universe
200. What If Dark Matter Disappeared

EARTH CHANGES (201-250)

201. What If All the Ice on Earth Melted
202. What If the Sahara Became Green
203. What If the Amazon Disappeared
204. What If Every Volcano Erupted at Once
205. What If the Yellowstone Supervolcano Erupted
206. What If the Himalayas Doubled in Height
207. What If Mount Everest Vanished
208. What If All Deserts Became Forests
209. What If the Poles Flipped Overnight
210. What If Earth's Core Cooled Down
211. What If Earth Had No Mountains
212. What If Earth Had No Oceans
213. What If Earth Was Completely Flat
214. What If Earth Had No Continents
215. What If the Continents Merged Back Into One
226. What If the Gulf Stream Stopped
227. What If Earth Had No Seasons
228. What If Earth Had Eternal Night
229. What If Earth Had Eternal Day
230. What If the Atmosphere Doubled in Thickness
231. What If Oxygen Dropped to 10 Percent
232. What If All Trees Vanished
233. What If All Plastic Disappeared
234. What If All Metal Rusted Overnight
235. What If Earth Grew 100 Meters Wider
236. What If Sea Level Rose by 1 Meter
237. What If Sea Level Rose by 70 Meters
238. What If You Dug a Hole Through the Earth
239. What If You Drilled to Earth's Core
240. What If a Tsunami Hit Every Coast

216. What If the San Andreas Fault Broke at Once
217. What If the Ring of Fire Erupted Together
218. What If All Rivers Dried Up
219. What If It Rained for 40 Days Straight
220. What If the Nile Changed Course
221. What If the Grand Canyon Filled With Water
222. What If the Dead Sea Disappeared
223. What If Antarctica Became Warm
224. What If Greenland Turned Green
225. What If Iceland Sank
241. What If Earth Lost Its Ozone Layer
242. What If a Mega-Earthquake Hit Tokyo
243. What If the Pacific Ocean Dried Up
244. What If a New Continent Rose From the Sea
245. What If a Meteor Hit the Pacific
246. What If Earth Had Perfect Weather Everywhere
247. What If Earth Was Covered in Ice Again
248. What If the Land Bridge to Asia Returned
249. What If Earth's Day Became 30 Hours
250. What If Rivers Flowed Uphill

OCEANS AND WATER (251-300)

251. What If You Fell to the Bottom of the Mariana Trench
252. What If the Ocean Turned to Fresh Water
253. What If All Fresh Water Disappeared
254. What If the Ocean Had No Salt
255. What If the Ocean Glowed at Night
256. What If You Swam Across the Pacific
257. What If You Lived in an Underwater City
258. What If You Slept at the Bottom of the Sea
259. What If You Drained the Atlantic
260. What If the Mediterranean Dried Up Again
261. What If You Scuba Dived to the Titanic
262. What If You Lived on a Boat for 50 Years
263. What If the Oceans Became Acid
264. What If the Oceans Boiled
265. What If the Oceans Froze
266. What If Coral Reefs Vanished
267. What If Every Sea Creature Surfaced
268. What If a Giant Whirlpool Opened Up
269. What If the Ocean Floor Cracked Open
270. What If the Tides Never Came
271. What If Waves Were 100 Meters High
272. What If You Floated in the Dead Sea for a Day
273. What If the Great Lakes Dried Up
274. What If Lake Baikal Melted
275. What If the Amazon River Ran Backwards
276. What If the Panama Canal Collapsed
277. What If the Suez Canal Closed Forever
278. What If All Ships Stopped Sailing
279. What If the Seabed Was Fully Mapped
280. What If You Found a Lost Sunken City
281. What If a Hidden Ocean Existed Under the Crust
282. What If Sharks Disappeared From the Sea
283. What If Jellyfish Took Over the Oceans
284. What If the Ocean Was One Mile Higher
285. What If the Ocean Was One Mile Lower
286. What If You Swam With a Blue Whale
287. What If You Walked Across the Ocean Floor
288. What If Fish Could Walk on Land
289. What If Rain Fell Upwards
290. What If Every Iceberg Melted at Once
291. What If the Arctic Ocean Opened Year-Round
292. What If a Submarine Ran for 100 Years
293. What If You Built a Bridge Across the Pacific
294. What If You Lived on a Floating City
295. What If the Moon Pulled the Ocean Into Space
296. What If Rivers Flowed in Circles
297. What If You Dived Into a Volcano Lake
298. What If a Mega-Tsunami Hit the Atlantic
299. What If Water Stopped Being Wet
300. What If Ice Sank Instead of Floating

MONEY AND ECONOMY (301-350)

301. What If You Invested $1 for 300 Years
302. What If Money Stopped Existing
303. What If Everyone Earned the Same Salary
304. What If Gold Was Worthless
305. What If You Found a Mountain of Gold
306. What If Every Person Got $1 Million
307. What If You Had Infinite Money for a Day
308. What If Banks Disappeared Overnight
309. What If You Paid Rent for 1,000 Years
310. What If Cash Vanished Tomorrow
311. What If Everything Was Free
312. What If You Saved $1 Every Day for 100 Years
313. What If You Inherited a Whole Island
314. What If You Bought a Country
315. What If Taxes Were Abolished
316. What If Nobody Had to Work
317. What If Work Was Paid by the Smile
318. What If You Won the Lottery 10 Times
319. What If Inflation Doubled Every Year
320. What If Prices Halved Every Year
321. What If You Became the Richest Person Alive
322. What If You Lost All Your Money Tomorrow
323. What If the World Used One Currency
324. What If Gold Rained From the Sky
325. What If You Owned Every Car on Earth
326. What If Everyone Quit Their Job for a Day
327. What If Online Shopping Disappeared
328. What If the Stock Market Closed for a Year
329. What If All Debt Was Erased
330. What If You Had a Trillion Pesos
331. What If Oil Ran Out Tomorrow
332. What If Electricity Was Free
333. What If Water Cost as Much as Gold
334. What If Diamonds Became Common
335. What If Rice Became Rare
336. What If You Ran a Country for a Day
337. What If Delivery Drones Replaced Every Truck
338. What If You Lived on $1 a Day for a Year
339. What If You Gave Away Everything You Own
340. What If You Turned Your Savings Into Gold Bars
341. What If Every Building Was Free to Live In
342. What If Wages Were Paid in Time
343. What If You Mined an Asteroid Full of Platinum
344. What If Every Island Was for Sale
345. What If You Could Print Money Safely
346. What If Tourism Stopped for 10 Years
347. What If Everyone Became a Millionaire at 30
348. What If You Could Sell Your Dreams
349. What If Cities Charged for Air
350. What If a Single Coin Doubled Every Day for a Month

ALTERNATE HISTORY (351-400)

351. What If the Roman Empire Never Fell
352. What If the Library of Alexandria Never Burned
353. What If Dinosaurs Never Went Extinct
354. What If the Wheel Was Never Invented
355. What If Fire Was Never Discovered
356. What If the Printing Press Was Never Invented
357. What If the Great Wall Was Never Built
358. What If Columbus Never Sailed
359. What If Magellan Never Reached Asia
360. What If the Black Death Never Happened
361. What If the Industrial Revolution Started 1,000 Years Earlier
362. What If Electricity Was Never Discovered
363. What If Writing Was Never Invented
364. What If Agriculture Never Began
365. What If the Pyramids Were Never Built
366. What If Ancient Greece Had Steam Engines
367. What If the Mongol Empire Never Collapsed
368. What If the Ottoman Empire Still Existed
369. What If the Silk Road Never Closed
370. What If the Spice Trade Never Began
371. What If the Panama Canal Was Never Built
372. What If the Suez Canal Was Never Dug
373. What If the Americas Were Never Found
374. What If Antarctica Had Been Settled in 1800
375. What If Egypt Ruled the World
376. What If the Moon Landing Happened in 1900
377. What If the Internet Was Invented in 1900
378. What If Trains Never Existed
379. What If the Airplane Was Invented 500 Years Earlier
380. What If the Ice Age Never Ended
381. What If Neanderthals Never Died Out
382. What If Humans Never Left Africa
383. What If the Vikings Settled North America
384. What If Rome Reached China
385. What If the Aztec Empire Survived
386. What If the Inca Empire Never Fell
387. What If the Ming Fleet Sailed to Europe
388. What If Medicine Was Invented 1,000 Years Earlier
389. What If the Telescope Was Never Invented
390. What If Paper Was Never Invented
391. What If Coffee Was Never Discovered
392. What If Tea Was Never Discovered
393. What If the Compass Was Never Invented
394. What If Gunpowder Was Never Invented
395. What If Steel Was Never Forged
396. What If Cities Never Existed
397. What If Language Never Evolved
398. What If Ancient Maps Were Perfectly Accurate
399. What If the Mayans Had Modern Technology
400. What If the Dark Ages Never Happened

TECHNOLOGY AND AI (401-450)

401. What If AI Ran an Entire City
402. What If Every Car Drove Itself
403. What If Phones Never Existed
404. What If the Internet Shut Down for a Week
405. What If the Internet Shut Down Forever
406. What If Every Device Had Infinite Battery
407. What If Robots Did All Human Jobs
408. What If You Had a Personal Robot
409. What If You Lived Inside a Smart House for 10 Years
410. What If You Uploaded Your Brain to a Computer
411. What If Teleportation Was Invented
412. What If Flying Cars Were Everywhere
413. What If Humans Built a Space Elevator
414. What If Every Roof Had Solar Panels
415. What If Fusion Power Worked Tomorrow
416. What If We Had Unlimited Clean Energy
417. What If Computers Became a Million Times Faster
418. What If Smartphones Were Banned
419. What If GPS Stopped Working
420. What If Satellites Fell From the Sky
421. What If You Lived Without Electricity for a Year
422. What If the Power Grid Failed for a Month
423. What If Every Screen Turned Off for a Day
424. What If Social Media Disappeared
425. What If You Lived Without a Phone for 10 Years
426. What If AI Wrote Every Book
427. What If AI Could Predict Your Whole Life
428. What If Machines Learned to Dream
429. What If Cars Were Invented Without Wheels
430. What If We Colonized the Ocean With Robots
431. What If a Quantum Computer Cracked Every Password
432. What If Cities Were Built on Giant Wheels
433. What If Every Building Was 3D Printed
434. What If We Lived in Domes on the Moon
435. What If Gene Editing Was Free for Everyone
436. What If Cameras Were Banned
437. What If Everyone Had a Hologram Twin
438. What If Drones Delivered Everything
439. What If Trains Reached 1,000 Km/h
440. What If We Built a Tunnel Around the World
441. What If We Built a Tower One Mile Tall
442. What If Robots Farmed the Entire Planet
443. What If AI Learned Every Language in the World
444. What If Smart Glasses Replaced Phones
445. What If Memory Chips Were Implanted in Humans
446. What If We Built a Dyson Sphere
447. What If Humans Lived Inside a Virtual World
448. What If 3D Printers Could Print Food
449. What If Every Light Bulb Burned Forever
450. What If We Stored the Internet on a Single Coin

PHILIPPINES (451-500)

451. What If the Philippines Had No Typhoons
452. What If All 7,641 Islands Joined Into One
453. What If Manila Sank Underwater
454. What If Mayon Volcano Erupted Today
455. What If Taal Volcano Erupted at Full Power
456. What If the Philippines Was Twice as Big
457. What If the Philippines Sat in the Middle of the Pacific Alone
458. What If the Philippines Became a Superpower
459. What If Every Filipino Went Home for Christmas
476. What If Baguio Had Never Been Built
477. What If the Banaue Rice Terraces Vanished
478. What If the Tarsier Went Extinct
479. What If the Philippine Eagle Disappeared
480. What If Coconuts Disappeared From the Philippines
481. What If Every Island Had Free Internet
482. What If the Philippines Had a Bullet Train
483. What If the Philippines Built a Bridge Between Luzon and Mindanao
484. What If You Lived on a Remote Philippine Island for 10 Years

460. What If EDSA Had No Traffic for a Day
461. What If Rice Disappeared From the Philippines
462. What If Jeepneys Were Banned Forever
463. What If the Philippines Had Four Seasons
464. What If the Philippines Had Snow
465. What If the Philippines Had No Rainy Season
466. What If the Philippines Moved to the Equator
467. What If the Philippines Joined the Ring of Fire Erupting
468. What If the Philippine Trench Opened
469. What If You Hiked Across All of Luzon
470. What If You Sailed Through Every Island of the Visayas
471. What If the Chocolate Hills Were Real Chocolate
472. What If Palawan Became the World's Top Destination
473. What If Boracay Closed Forever
474. What If Cebu Became the Capital
475. What If Davao Became the Largest City
485. What If Mindanao Was Its Own Country
486. What If Lake Taal Disappeared
487. What If Sea Level Rise Hit Manila Bay
488. What If the Philippines Had Never Been Colonized
489. What If the Philippines Had No Earthquakes
490. What If You Walked Across the Sierra Madre
491. What If the Pasig River Was Fully Clean
492. What If the Philippines Had Sea Elevators
493. What If the Philippines Became a Space Nation
494. What If You Counted Every Island in the Philippines
495. What If the Philippines Hosted the Olympics
496. What If Every Filipino Became Bilingual in Ten Languages
497. What If Pandesal Became the World's Favorite Bread
498. What If the Philippines Lost Its Coastline
499. What If Mount Pinatubo Erupted Again
500. What If You Visited Every Province in One Year

DAILY-LIFE EXPERIMENTS (501-550)

501. What If You Never Cut Your Hair
502. What If You Never Cut Your Nails
503. What If You Never Brushed Your Teeth
504. What If You Never Washed Your Clothes
505. What If You Walked 30,000 Steps Every Day
506. What If You Never Sat Down for a Year
507. What If You Stood for 24 Hours
508. What If You Never Used Your Phone for 30 Days
509. What If You Stayed Awake for 48 Hours
510. What If You Never Used Stairs Again
511. What If You Took Cold Showers for a Year
512. What If You Never Spoke for a Week
513. What If You Never Left Your Room for a Month
514. What If You Did 100 Push-Ups Every Day for a Year
515. What If You Ran a Marathon Every Month
516. What If You Read One Book Every Day
517. What If You Wrote Every Day for 10 Years
518. What If You Learned a New Word Every Hour
519. What If You Never Complained for a Year
520. What If You Smiled at Every Stranger
521. What If You Said Yes to Everything for a Week
522. What If You Said No to Everything for a Week
523. What If You Never Used a Clock for a Month
524. What If You Woke Up at 4 AM for a Year
525. What If You Went to Bed at 8 PM for a Year
526. What If You Lived in One Room for 5 Years
527. What If You Ate Your Meals in Silence for a Year
528. What If You Meditated 1 Hour a Day for 10 Years
529. What If You Wrote a Letter Every Day for a Year
530. What If You Never Used a Mirror for a Month
531. What If You Walked Barefoot for a Year
532. What If You Never Drove Again
533. What If You Cycled Across a Country
534. What If You Hiked Every Day for a Year
535. What If You Never Used a Shopping Bag Again
536. What If You Lived Without Plastic for a Year
537. What If You Never Threw Anything Away for 10 Years
538. What If You Never Used a Credit Card Again
539. What If You Had Only One Outfit for a Year
540. What If You Slept on the Floor for 30 Days
541. What If You Lived on a Tiny Island for a Month
542. What If You Took a Photo Every Day for 20 Years
543. What If You Called a Friend Every Day for a Year
544. What If You Kept a Dream Journal for 10 Years
545. What If You Learned to Juggle in 30 Days
546. What If You Learned the Piano in a Year
547. What If You Learned a New Language in 3 Months
548. What If You Planted a Tree Every Day for a Decade
549. What If You Never Used the Internet for a Year
550. What If You Spent a Year in Complete Silence

WEATHER AND SKY (551-600)

551. What If It Rained Diamonds
552. What If Lightning Never Stopped
553. What If a Hurricane Hit the Same City Every Year
554. What If the Sky Turned Green
555. What If It Snowed in the Sahara
556. What If Tornadoes Lasted a Week
557. What If the Wind Stopped Blowing
558. What If Every Cloud Disappeared
559. What If Clouds Were Solid
560. What If the Sky Was Always Red
561. What If Rainbows Were Permanent
562. What If It Never Rained Again
563. What If It Rained Every Day for a Year
564. What If the Sun Never Set in Your City
565. What If the Northern Lights Were Visible Everywhere
566. What If Thunder Never Stopped
567. What If Temperatures Rose by 10 Degrees
568. What If Temperatures Dropped by 20 Degrees
569. What If a Heatwave Lasted 100 Days
570. What If a Blizzard Covered the Whole Planet
576. What If You Lived on the Top of Everest for a Year
577. What If You Flew Into the Eye of a Hurricane
578. What If You Stood in Antarctica for a Month
579. What If You Stood in the Sahara for a Day
580. What If You Lived in the Rainiest Place on Earth
581. What If You Lived in the Windiest Place on Earth
582. What If the Air Turned Purple
583. What If the Sky Rained Fish
584. What If Dew Became Ice Every Morning
585. What If a Cloud Swallowed a City
586. What If the Moon Always Looked Red
587. What If the Sky Had Two Suns
588. What If the Sky Went Dark at Noon
589. What If a Solar Eclipse Lasted a Year
590. What If the Weather Was Controlled by Humans
591. What If Monsoons Never Ended
592. What If It Was Always Summer
593. What If It Was Always Winter
594. What If Cyclones Never Hit the Tropics
595. What If a Supercell Followed You Home

571. What If Earth Had Permanent Fog
572. What If a Dust Storm Covered a Continent
573. What If Hail Was the Size of a Car
574. What If a Tornado Touched Every Continent
575. What If Lightning Hit You 7 Times
596. What If the Whole World Had the Same Temperature
597. What If Air Was as Thick as Water
598. What If Clouds Lit Up at Night
599. What If the Sky Was Full of Floating Islands
600. What If Fog Covered the Pacific Forever

MIND AND SOCIETY (601-650)

601. What If Everyone Told the Truth for a Day
602. What If Nobody Could Lie
603. What If Everyone Could Read Minds
604. What If Nobody Spoke the Same Language
605. What If Everyone Spoke One Language
606. What If No One Had Phones for a Week
607. What If Everyone Worked Only 3 Days a Week
608. What If Everyone Was Kind for a Year
609. What If War Ended Forever
610. What If Hunger Was Solved Tomorrow
611. What If Humans Were Born Knowing Everything
612. What If Everyone Forgot Yesterday
613. What If Everyone Had the Same Face
614. What If Everyone Was the Same Height
615. What If Nobody Needed Sleep
616. What If Everyone Lived in One City
617. What If Every Country Had No Borders
618. What If Everyone Lived Underground
619. What If Everyone Lived in Space
620. What If Every Person Planted a Tree
621. What If Every Person Was Taught to Cook
622. What If All Humans Disappeared for a Day
623. What If Everyone Was Colorblind
624. What If Everyone Could Fly
625. What If Everyone Was a Genius
626. What If Nobody Ever Got Angry
627. What If Humans Were Born Without Fear
628. What If Everyone Wore the Same Clothes
629. What If Everyone Shared Their Dreams
630. What If All Books Vanished
631. What If Memory Could Be Transferred Between People
632. What If We Could Talk to Animals
633. What If Humans Had No Names
634. What If Everyone Had a Twin
635. What If Humans Had Never Learned to Walk Upright
636. What If Everyone Had a Personal Soundtrack
637. What If School Lasted Only 3 Hours
638. What If Cities Had No Cars
639. What If We Had No Weekend
640. What If Everyone Went Vegetarian
641. What If Everyone Lived Alone
642. What If We Lived in Giant Families of 100
643. What If Everyone Could See Auras
644. What If People Wore Their Age on Their Forehead
645. What If Children Ran the World
646. What If Elders Ruled for 1,000 Years
647. What If Nobody Owned Property
648. What If Everyone Worked at What They Loved
649. What If Everyone Traveled the World Once
650. What If Silence Was Illegal

SPACE SURVIVAL (651-700)

651. What If You Were Stranded on Mercury for 24 Hours
652. What If You Were Stranded on Venus for 24 Hours
653. What If You Were Stranded on the Moon for 24 Hours
654. What If You Were Stranded on Mars for 24 Hours
655. What If You Were Stranded on Phobos for 24 Hours
656. What If You Were Stranded on Ceres for 24 Hours
657. What If You Were Stranded on Io for 24 Hours
658. What If You Were Stranded on Europa for 24 Hours
659. What If You Were Stranded on Ganymede for 24 Hours
660. What If You Were Stranded on Callisto for 24 Hours
661. What If You Were Stranded on Titan for 24 Hours
662. What If You Were Stranded on Enceladus for 24 Hours
663. What If You Were Stranded on Miranda for 24 Hours
664. What If You Were Stranded on Triton for 24 Hours
665. What If You Were Stranded on Pluto for 24 Hours
666. What If You Were Stranded on Eris for 24 Hours
667. What If You Were Stranded on Halley's Comet for 24 Hours
668. What If You Were Stranded on an Asteroid for 24 Hours
669. What If You Were Stranded on Saturn's Rings for 24 Hours
670. What If You Were Stranded on Jupiter's Cloud Tops for 24 Hours
671. What If You Were Stranded on Olympus Mons for 24 Hours
672. What If You Were Stranded on Mimas for 24 Hours
673. What If You Were Stranded on Charon for 24 Hours
674. What If You Were Stranded on Ariel for 24 Hours
675. What If You Were Stranded on Rhea for 24 Hours
676. What If You Fell Into a Black Hole
677. What If You Fell Into a Neutron Star
678. What If You Fell Into a Pulsar
679. What If You Fell Into the Sun
680. What If You Fell Into Jupiter
681. What If You Fell Into Saturn
682. What If You Fell Into a Supernova
683. What If You Fell Into a Wormhole
684. What If You Fell Into the Great Red Spot
685. What If You Fell Into a Quasar
686. What If You Fell Into a White Dwarf
687. What If You Fell Into Venus's Atmosphere
688. What If You Fell Into the Orion Nebula
689. What If You Fell Into the Center of the Milky Way
690. What If You Fell Into a Magnetar
691. What If You Fell Into a Rogue Planet
692. What If You Fell Into a Cosmic Void
693. What If You Fell Into Betelgeuse
694. What If You Fell Into Saturn's Hexagon Storm
695. What If You Fell Into a Comet's Tail
696. What If You Fell Into Neptune's Storms
697. What If You Fell Into an Io Volcano
698. What If You Fell Into a Titan Methane Lake
699. What If You Fell Into the Kuiper Belt
700. What If You Fell Into the Oort Cloud

COUNTRIES ON THE MAP (701-750)

701. What If Japan Disappeared Overnight
702. What If China Disappeared Overnight
703. What If India Disappeared Overnight
704. What If the United States Disappeared Overnight
726. What If Iceland Disappeared Overnight
727. What If Greece Disappeared Overnight
728. What If Vietnam Disappeared Overnight
729. What If Thailand Disappeared Overnight

705. What If Russia Disappeared Overnight
706. What If Brazil Disappeared Overnight
707. What If Egypt Disappeared Overnight
708. What If Australia Disappeared Overnight
709. What If Canada Disappeared Overnight
710. What If Germany Disappeared Overnight
711. What If France Disappeared Overnight
712. What If the United Kingdom Disappeared Overnight
713. What If Italy Disappeared Overnight
714. What If Spain Disappeared Overnight
715. What If Mexico Disappeared Overnight
716. What If Indonesia Disappeared Overnight
717. What If Saudi Arabia Disappeared Overnight
718. What If Turkey Disappeared Overnight
719. What If South Korea Disappeared Overnight
720. What If Nigeria Disappeared Overnight
721. What If South Africa Disappeared Overnight
722. What If Argentina Disappeared Overnight
723. What If the Netherlands Disappeared Overnight
724. What If Switzerland Disappeared Overnight
725. What If Norway Disappeared Overnight
730. What If Singapore Disappeared Overnight
731. What If Malaysia Disappeared Overnight
732. What If Pakistan Disappeared Overnight
733. What If Iran Disappeared Overnight
734. What If Ukraine Disappeared Overnight
735. What If Poland Disappeared Overnight
736. What If Sweden Disappeared Overnight
737. What If Finland Disappeared Overnight
738. What If Chile Disappeared Overnight
739. What If Peru Disappeared Overnight
740. What If Colombia Disappeared Overnight
741. What If Kenya Disappeared Overnight
742. What If Ethiopia Disappeared Overnight
743. What If Morocco Disappeared Overnight
744. What If New Zealand Disappeared Overnight
745. What If the United Arab Emirates Disappeared Overnight
746. What If Cuba Disappeared Overnight
747. What If Ireland Disappeared Overnight
748. What If Portugal Disappeared Overnight
749. What If Mongolia Disappeared Overnight
750. What If Kazakhstan Disappeared Overnight

WALK ACROSS THE MAP (751-800)

751. What If You Walked From Lisbon to Vladivostok
752. What If You Walked From Cape Town to Cairo
753. What If You Walked From Alaska to Argentina
754. What If You Walked From London to Beijing
755. What If You Walked From Singapore to Paris
756. What If You Walked From Madrid to Mumbai
757. What If You Walked From Moscow to Istanbul
758. What If You Walked From Rome to Berlin
759. What If You Walked From Sydney to Perth
760. What If You Walked From Nairobi to Lagos
761. What If You Walked From Mexico City to Panama City
762. What If You Walked From Toronto to Miami
763. What If You Walked From Seoul to Hanoi
764. What If You Walked From Bangkok to Kuala Lumpur
765. What If You Walked From Cairo to Istanbul
766. What If You Walked From Dubai to Delhi
767. What If You Walked From Tehran to Athens
768. What If You Walked From Oslo to Athens
769. What If You Walked From Paris to Moscow
770. What If You Walked From Lima to Buenos Aires
771. What If You Walked From Bogota to Santiago
772. What If You Walked From Jakarta to Bangkok
773. What If You Walked From Tokyo to Kyoto
774. What If You Walked From Beijing to Lhasa
775. What If You Walked From Kathmandu to Colombo
776. What If You Walked From Reykjavik to the Arctic Circle
777. What If You Walked From Anchorage to Seattle
778. What If You Walked From Chicago to New Orleans
779. What If You Walked From New York to Los Angeles
780. What If You Walked From Vancouver to Mexico City
781. What If You Walked From Quito to Rio de Janeiro
782. What If You Walked From Casablanca to Cairo
783. What If You Walked From Addis Ababa to Johannesburg
784. What If You Walked From Dakar to Nairobi
785. What If You Walked From Istanbul to Mecca
786. What If You Walked From Tashkent to Beijing
787. What If You Walked From Ulaanbaatar to Moscow
788. What If You Walked From Hanoi to Singapore
789. What If You Walked From Perth to Brisbane
790. What If You Walked From Auckland to Wellington
791. What If You Walked From Edinburgh to Rome
792. What If You Walked From Dublin to Warsaw
793. What If You Walked From Helsinki to Lisbon
794. What If You Walked From Prague to Athens
795. What If You Walked From Kyiv to Istanbul
796. What If You Walked From Baku to Tbilisi
797. What If You Walked From Aparri to Manila
798. What If You Walked From Baguio to Manila
799. What If You Walked From Laoag to Legazpi
800. What If You Walked From Tuguegarao to Manila

CITIES ACROSS TIME (801-850)

801. What If You Lived in Manila for 1,000 Years
802. What If You Lived in Cebu City for 1,000 Years
803. What If You Lived in Davao City for 1,000 Years
804. What If You Lived in Baguio for 1,000 Years
805. What If You Lived in Tokyo for 1,000 Years
806. What If You Lived in Seoul for 1,000 Years
807. What If You Lived in Beijing for 1,000 Years
808. What If You Lived in Shanghai for 1,000 Years
809. What If You Lived in Hong Kong for 1,000 Years
810. What If You Lived in Singapore for 1,000 Years
811. What If You Lived in Bangkok for 1,000 Years
812. What If You Lived in Jakarta for 1,000 Years
813. What If You Lived in Mumbai for 1,000 Years
814. What If You Lived in Delhi for 1,000 Years
815. What If You Lived in Dubai for 1,000 Years
826. What If You Lived in Amsterdam for 1,000 Years
827. What If You Lived in Moscow for 1,000 Years
828. What If You Lived in Athens for 1,000 Years
829. What If You Lived in Reykjavik for 1,000 Years
830. What If You Lived in New York for 1,000 Years
831. What If You Lived in Los Angeles for 1,000 Years
832. What If You Lived in Chicago for 1,000 Years
833. What If You Lived in Toronto for 1,000 Years
834. What If You Lived in Mexico City for 1,000 Years
835. What If You Lived in Havana for 1,000 Years
836. What If You Lived in Lima for 1,000 Years
837. What If You Lived in Rio de Janeiro for 1,000 Years
838. What If You Lived in Buenos Aires for 1,000 Years
839. What If You Lived in Santiago for 1,000 Years
840. What If You Lived in Sydney for 1,000 Years

816. What If You Lived in Istanbul for 1,000 Years
817. What If You Lived in Cairo for 1,000 Years
818. What If You Lived in Lagos for 1,000 Years
819. What If You Lived in Nairobi for 1,000 Years
820. What If You Lived in Cape Town for 1,000 Years
821. What If You Lived in London for 1,000 Years
822. What If You Lived in Paris for 1,000 Years
823. What If You Lived in Rome for 1,000 Years
824. What If You Lived in Berlin for 1,000 Years
825. What If You Lived in Madrid for 1,000 Years
841. What If You Lived in Melbourne for 1,000 Years
842. What If You Lived in Auckland for 1,000 Years
843. What If You Lived in Honolulu for 1,000 Years
844. What If You Lived in Venice for 1,000 Years
845. What If You Lived in Kyoto for 1,000 Years
846. What If You Lived in Marrakesh for 1,000 Years
847. What If You Lived in Petra for 1,000 Years
848. What If You Lived in Machu Picchu for 1,000 Years
849. What If You Lived in Dhaka for 1,000 Years
850. What If You Lived in Hanoi for 1,000 Years

ANIMALS (851-900)

851. What If Bees Went Extinct Tomorrow
852. What If Wolves Went Extinct Tomorrow
853. What If Sharks Went Extinct Tomorrow
854. What If Ants Went Extinct Tomorrow
855. What If Elephants Went Extinct Tomorrow
856. What If Whales Went Extinct Tomorrow
857. What If Bats Went Extinct Tomorrow
858. What If Frogs Went Extinct Tomorrow
859. What If Spiders Went Extinct Tomorrow
860. What If Earthworms Went Extinct Tomorrow
861. What If Mosquitoes Went Extinct Tomorrow
862. What If Penguins Went Extinct Tomorrow
863. What If Tigers Went Extinct Tomorrow
864. What If Eagles Went Extinct Tomorrow
865. What If Crocodiles Went Extinct Tomorrow
866. What If Octopuses Went Extinct Tomorrow
867. What If Butterflies Went Extinct Tomorrow
868. What If Dolphins Went Extinct Tomorrow
869. What If Cows Went Extinct Tomorrow
870. What If Chickens Went Extinct Tomorrow
871. What If Rats Went Extinct Tomorrow
872. What If Pigs Went Extinct Tomorrow
873. What If Horses Went Extinct Tomorrow
874. What If Carabaos Went Extinct Tomorrow
875. What If Fruit Bats Went Extinct Tomorrow
876. What If Ants Were the Size of a House
877. What If Cats Were the Size of a House
878. What If Spiders Were the Size of a House
879. What If Dogs Were the Size of a House
880. What If Crabs Were the Size of a House
881. What If Snails Were the Size of a House
882. What If Frogs Were the Size of a House
883. What If Butterflies Were the Size of a House
884. What If Bees Were the Size of a House
885. What If Turtles Were the Size of a House
886. What If Hamsters Were the Size of a House
887. What If Pigeons Were the Size of a House
888. What If Centipedes Were the Size of a House
889. What If Dragonflies Were the Size of a House
890. What If Goldfish Were the Size of a House
891. What If Rabbits Were the Size of a House
892. What If Lizards Were the Size of a House
893. What If Rats Were the Size of a House
894. What If Geckos Were the Size of a House
895. What If Crows Were the Size of a House
896. What If Squirrels Were the Size of a House
897. What If Hermit Crabs Were the Size of a House
898. What If Seahorses Were the Size of a House
899. What If Bats Were the Size of a House
900. What If Mosquitoes Were the Size of a House

FOOD EXPERIMENTS (901-950)

901. What If You Only Ate Rice for 30 Days
902. What If You Only Ate Bananas for 30 Days
903. What If You Only Ate Instant Noodles for 30 Days
904. What If You Only Ate Eggs for 30 Days
905. What If You Only Ate Chicken for 30 Days
906. What If You Only Ate Bread for 30 Days
907. What If You Only Ate Potatoes for 30 Days
908. What If You Only Ate Pizza for 30 Days
909. What If You Only Ate Hotdogs for 30 Days
910. What If You Only Ate Apples for 30 Days
911. What If You Only Ate Carrots for 30 Days
912. What If You Only Ate Rice and Eggs for 30 Days
913. What If You Only Ate Oatmeal for 30 Days
914. What If You Only Ate Fish for 30 Days
915. What If You Only Ate Beef for 30 Days
916. What If You Only Ate Cheese for 30 Days
917. What If You Only Ate Peanut Butter for 30 Days
918. What If You Only Ate Mangoes for 30 Days
919. What If You Only Ate Coconut for 30 Days
920. What If You Only Ate Tuna for 30 Days
921. What If You Only Ate Tofu for 30 Days
922. What If You Only Ate Sweet Potatoes for 30 Days
923. What If You Only Ate Corn for 30 Days
924. What If You Only Ate Beans for 30 Days
925. What If You Only Ate Watermelon for 30 Days
926. What If You Only Ate Pasta for 30 Days
927. What If You Only Ate Avocados for 30 Days
928. What If You Only Ate Cabbage for 30 Days
929. What If You Only Ate Chocolate for 30 Days
930. What If You Only Ate Sardines for 30 Days
931. What If You Only Ate Pancit for 30 Days
932. What If You Only Ate Adobo for 30 Days
933. What If You Only Ate Sinigang for 30 Days
934. What If You Only Ate Lugaw for 30 Days
935. What If You Only Ate Pandesal for 30 Days
936. What If You Only Ate Tapsilog for 30 Days
937. What If You Only Ate Kamote for 30 Days
938. What If You Only Ate Saba Bananas for 30 Days
939. What If You Only Ate Dried Fish for 30 Days
940. What If You Only Ate Malunggay for 30 Days
941. What If You Only Ate Boiled Peanuts for 30 Days
942. What If You Only Ate Lechon for 30 Days
943. What If You Only Ate Longganisa for 30 Days
944. What If You Only Ate Bibingka for 30 Days
945. What If You Only Ate Halo-Halo for 30 Days
946. What If You Only Ate Turon for 30 Days
947. What If You Only Ate Taho for 30 Days
948. What If You Only Ate Ube for 30 Days
949. What If You Only Ate Pineapple for 30 Days
950. What If You Only Ate Soup for 30 Days

WAKE UP IN ANOTHER ERA (951-1000)

951. What If You Woke Up in Ancient Egypt in 2500 BC
952. What If You Woke Up in Ancient Greece in 400 BC
953. What If You Woke Up in the Roman Empire in 100 AD
954. What If You Woke Up in China's Han Dynasty
955. What If You Woke Up in the Maya City of Tikal
956. What If You Woke Up in the Inca Empire in 1500
957. What If You Woke Up in Viking Scandinavia in 900
958. What If You Woke Up in Medieval Paris in 1200
959. What If You Woke Up in Genghis Khan's Mongolia
960. What If You Woke Up in the Silk Road in 1300
961. What If You Woke Up in Venice in 1450
962. What If You Woke Up in Tenochtitlan in 1519
963. What If You Woke Up in Tokugawa Japan in 1700
964. What If You Woke Up in Victorian London in 1880
965. What If You Woke Up in the Wild West in 1870
966. What If You Woke Up in the Titanic in 1912
967. What If You Woke Up in New York in 1925
968. What If You Woke Up in Paris in 1889
969. What If You Woke Up in Tokyo in 1945
970. What If You Woke Up in Manila in 1900
971. What If You Woke Up in Manila in 1970
972. What If You Woke Up in the Ice Age
973. What If You Woke Up in the Age of Dinosaurs
974. What If You Woke Up in the Stone Age
975. What If You Woke Up in Pompeii in 79 AD
976. What If You Woke Up in the Year 2100
977. What If You Woke Up in the Year 2500
978. What If You Woke Up in the Year 3000
979. What If You Woke Up in the Year 10,000
980. What If You Woke Up in the Year 1 Million
981. What If You Woke Up in a Mars Colony in 2200
982. What If You Woke Up in the Moon in 2150
983. What If You Woke Up in a Floating Ocean City in 2300
984. What If You Woke Up in Earth in 1 Billion Years
985. What If You Woke Up in Earth After the Ice Melts
986. What If You Woke Up in Earth Before the Moon
987. What If You Woke Up in Earth With One Giant Continent
988. What If You Woke Up in the First Day of Humanity
989. What If You Woke Up in Baghdad in 800
990. What If You Woke Up in Timbuktu in 1350
991. What If You Woke Up in Angkor Wat in 1150
992. What If You Woke Up in Constantinople in 1400
993. What If You Woke Up in the Ottoman Court in 1550
994. What If You Woke Up in Machu Picchu in 1450
995. What If You Woke Up in Easter Island in 1200
996. What If You Woke Up in Cairo in 1000
997. What If You Woke Up in Kyoto in 1000
998. What If You Woke Up in Samarkand in 1400
999. What If You Woke Up in Lisbon in 1755
1000. What If You Woke Up in Pacific Islands in 1000 BC
